## Martha Stewart's Ice Tea

9 - 10 tea bags (every kind you can think of except smoky flavors), include mint, etc.

add about 2 bags of real tea (I think that would be Lipton, etc?)

put in 8 cup measure or pitcher and cover with boiling water.

Sit 10 minutes or more.

Remove tea bags

add 1/4 cup sugar

juice from 1 - 2 lemons

Serve tea in a separate pitcher from ice - add ice to glass and then tea. top with fresh mint.

You can also make ice cubes out of the tea beforehand and use in tea so that it doesn't dilute.
